

General Guidelines for Sunday School Reopening for Attendees

Nursery and Preschool care

All families please use the child check-in systems to keep track of who is here. Attendees should not bring play items like toys or personal items from home.

Children's church

Parents have the option of letting children go to Children's Church or checking out the children from Sunday School and bringing them to worship.

Sanitizing

Hand sanitizer, cleaning solutions, wipes, and tissue will be placed in rooms.

Room preparation/distancing

Each class will designate and spread out chairs for use. Attendees also can go to the Auditorium Class right now.

Doors

Sunday School doors will be propped open.

Hallways

Please do not congregate to visit and create crowded hallways between Sunday School and worship.

Masks

The wearing of masks is strongly recommended in each Sunday School room for those over the age of six.

Water bottles

Fountains will be closed. Please bring your own water bottles.

If a person or child is sick or has symptoms at home

Please worship at home if you are sick or have symptoms (fever over 100.4 currently or within the last 24 hours, vomiting or diarrhea currently or within the last 24 hours, runny nose, cough, unexplained rashes, skin infections, eye infections, etc.). The volunteers, teachers, and leaders in your child's class may not accept him or her into the classroom.

If a person is sick or has symptoms after arrival

If a child develops any of the above symptoms while at church, we will ask parents to pick up the child immediately. In that case, children with symptoms will be isolated from the other children and wear a mask until picked up. The medical room will be outside the old sanctuary.

Contact plan if attendees to Sunday School have come in contact with another attendee in class who tests positive

We will work with a person who becomes sick to respectfully and confidentially inform others that might have had contact with them according to the six feet/fifteen minute guidelines.
